THIS IS A STARTLING SET OF PICTURES!

Note: The red dots show homes currently in foreclosure. The slide title describes the fraction of homes that received foreclosure filings in 2010

Although some of the worst hit areas in Nevada, California and Florida improved from 2009, the foreclosure rate in these areas remains high.

For a way to visualize the foreclosure crisis, they borrowed a [Google](#) maps technique described by [Barry Ritholtz](#).

Keep scrolling down, Las Vegas is the big winner/loser with its number of foreclosures.

20) Boise, Idaho -- 1 in 21 homes in foreclosure (The red dots show all foreclosures in process)
